

Open Gate Garden Kimberley Newsletter

Spring 2017

wildsight

Hi All,

As you can see in the pictures we built a Hugelkultur in the garden. Feel free to check it out anytime. Below you see some "solar yoga" we did during the workshop, which is a low tech way to figure out how much sunlight plants will get.

We have had some kindergarten classes explore the garden and plant seeds in the freezer beds already.

The water has been turned on in the garden since last week, so gardening can start.

For those who would like to help, and we hope there will be lots, we will have our first workbees:

Thursday May 11th from 10:30 am until about noon and

Thursday May 11th from 6:30 pm until about 8pm.

Please feel free to come out and help start the garden up for the year.

Happy gardening!

The Open Gate Garden

This is an edible community garden based on sharing knowledge, ideas, tasks and food. There are no allotted plots in this garden and the use of the garden is free to anyone. We ask you to please use the garden with respect, so it will still be there for generations to come. There are gardening tools in the shed for you to use. Please sign the logbook in the shed as this helps with funding for the garden. If you have any questions, ideas or wonder how you can be involved, please feel free contact us at 250-422-3579
