# Strategic Plan

August 1, 2016

## 1. Introduction

---

The Wildsight Kimberley Cranbrook Branch is comprised of people that care! Led by a passionate and conscientious Board of Directors and Branch Manager, the Kimberley Cranbrook Branch is in a critical stage of planning to sustain current initiatives and build on recent years' programming successes. Wildsight Kimberley Cranbrook Branch takes on more targeted community-based programs that contribute to meeting the overall Vision established by the Wildsight organization as a whole. This document is the dynamic blueprint for sustainable maintenance and growth of the Kimberley Cranbrook Branch's operations and activities.

This Plan is the product of numerous review and planning sessions by Branch Board Members and Wildsight employees, feedback from regional meetings, collaboration with Wildsight members, as well as a comprehensive review of Wildsight regional actions and priorities. The Kimberley Cranbrook Branch Board of Directors was grateful for the support of Columbia Basin Trust's Non-Profit Advisors' Program, in particular Theresa Negreiff who provided initial recommendations and supported the Board in accessing funding to work with an advisor to facilitate a collaborative process to complete this Plan. As such, we enlisted the services of Becky Pelkonen of Handspun Consulting to act as our collaboration coach and planning consultant.

This Strategic Plan is intended to be a "living document" that provides a road map for where we want to be from an assessment of where we are now. Together, we have defined the values that we carry forward into every action and we have developed a list of Branch-specific goals, strategies and priorities that move us to where we want to be. Through it all, we have considered important "change management" factors and readiness activities that allow us to transition through any important and critical changes and to effectively manage change. By acknowledging these change management factors, we are more readily available to further identify and inspire further positive change.

As a local Branch we will always continue to be faced with change and are enthusiastic about developing this road map to enable us to manage rather than react to change. This planning process has provided us with a system to lead, manage and change the Wildsight Kimberley Cranbrook Branch in a well-planned, integrated manner based on our collective priorities. This systems approach will also provide a management process that assures we focus our resources to most effectively move towards our Mission.

The Kimberley Cranbrook Branch Board of Directors is to be commended for their collaboration, dedication, imagination and perseverance throughout this process. They are fully aware that a plan is of little value by itself and took every effort to engage with and review other levels of Wildsight planning and work so to create a local organization that will benefit all stakeholders – our members, our employees and all those with whom we collaborate. We look forward to working with all interested parties and partners to take part in making our future happen!

With sincere thanks to all involved,

Dean Chatterson, Wildsight Kimberley Cranbrook Branch President

## **2. Wildsight Vision**

---

The Wildsight Kimberley Cranbrook Branch works towards the overall Wildsight organizational Vision:

*Wildsight envisions a landscape with free-running streams and rivers of pure water, extensive and connected wild spaces, and natural habitat that maintains the full complement of indigenous plants and wildlife. We see healthy human communities thriving with sustainable livelihoods and lifestyles based on a conservation ethic.*

## **3. Wildsight Kimberley – Cranbrook Branch Mission**

---

Being a local organization, the Wildsight Kimberley Cranbrook Branch works towards a more focused, community-based Mission:

*The Wildsight Kimberley Cranbrook Branch empowers environmentally responsible citizenry and supports conscious local economy. It provides consistent and ongoing leadership by engaging and listening to the concerns of the community, then responding with care, insight and innovation. The branch develops local programs, projects, events and campaigns that support ecological literacy and community action.*

## **4. Wildsight Kimberley – Cranbrook Branch Values**

---

The Wildsight Kimberley - Cranbrook Branch plans, implements and reflects on all priorities and actions within the following guiding set of collective values:

- Inclusion
- Community Involvement
- Collaboration
- Innovation
- Sustainability

## 6. Plan Success Factors

---

In developing this Plan, the Wildsight Kimberley – Cranbrook Board of Directors and Branch Manager had substantial ownership and involvement in its development. In order for this Plan to transpire and remain a success, the following areas have been identified as “critical success factors.”

### 6.1 Team Motivation

One of the key motivational issues for implementing a Strategic Plan is to make sure the Goals, Objectives and Actions are clear to each team member and a clear focus is maintained throughout the process. Each team member must be able to see how their contribution will be valued, and what the rewards are for active participation in the plan. A Plan will not succeed if team members are not committed to overcoming every challenge and obstacle on the path to success.

It is recommended that the Wildsight Board of Directors approve and update this Plan on an Annual Basis as well as identify areas within the Plan for direct involvement, while also providing the Branch Manager the freedom and confidence to carry and manage this Plan on behalf of the organization.

### 6.2 Monitoring Progress

As the Plan progresses, there should be checkpoints to monitor and analyze progress being made towards project completion and successful ongoing program management. As the progress at each checkpoint is analyzed, revisions should be made to ensure objectives and actions are being met, as established at the beginning of this process. This will also ensure that the Branch leadership is able to sufficiently analyze any factors key to organizational, project, and program successes.

Key actions that are recommended to take place in order to ensure a sufficient monitoring process include but are not limited to:

- Attaching this Plan directly to an Annual Global Budget
- Branch Manager to provide quarterly update reports to the Board at scheduled Board Meetings – space has been provided within this Plan to do so
- Prior to the Branch AGM, update this Plan (on an Annual Basis)

### **6.3 Develop and Implement Mechanisms for Reporting, Dialogue & Collaboration**

With collaboration as a leading value for the Kimberley – Cranbrook Branch of Wildsight, it is strongly encouraged to develop mechanisms for dialogue and collaboration with community, partners and members in order to share and solicit feedback on this Plan on an Annual basis. Some recommended strategies for creating dialogue surrounding this Plan include but are not limited to:

- Presenting this Plan directly to the Kimberley and Cranbrook City Councils at regularly scheduled meetings;
- Providing copies of this Plan and soliciting feedback in writing directly to key collaborators such as local Chambers of Commerce, EKIPC and any other key collaborators
- Presenting this Plan directly to the Wildsight Regional Board and Management at a regularly scheduled meeting and engaging in consultation, dialogue and feedback
- Providing a copy of this Plan and any Quarterly and/or Annual Reports on the Branch website

## Future Projects & Programming

This form was developed to successfully sustain, plan and develop operational and governance strategies for any new or future projects or programming for the Wildsight Kimberley Cranbrook Branch. Please fill out this form before providing new or future project proposals or ideas to the Wildsight Kimberley Cranbrook Branch Manager or any of the Branch Board Members. This information will then be presented at the next upcoming Board Meeting for consideration to add to the Branch's Strategic Plan.

Please provide a short description or title of proposed Project and/or Program.

How does this Project/Program align with the Wildsight Vision? And with the Branch Mission?

What resources and/or capacity are required to initiate and sustain this proposed Project/Program? Please consider funding required, in-kind time from the Branch Manager, volunteers, etc.

Is there economic viability for this proposed Project/Program? Economic viability considerations include administration funding and enough funding to sustain the necessary materials/costs within a defined timeframe for this Project/Program. Please also submit a preliminary proposed budget or costs if available.

What is the operational plan for this Project/Program? For example, who will oversee this Project/Program to ensure successful management? What operational considerations must be made?

Does this Project/Program require partnership? Is there a way to partner this Project/Program with others in order to create economies of scale or further viability?

Are there any legal and/or health and safety considerations to be made?
