WE INVITE YOU
TO BE PART OF IT

Wildsight Kimberley / Cranbrook has hosted an annual Banff World Tour screening as a fundraiser for well over 30 years. Last year, our team won a contest to host a one-of-a-kind Summit Screening featuring different films from the January 2026 lineups, including the audience choice award winner.

As planning got underway and we realized the mountaintop venue's limited capacity, we started thinking about how to create a bigger experience for the whole community to enjoy. And so, the Stillpoint Festival was born to gather, connect through stories, and imagine what's possible—together.

This fundraising festival event was dreamt up for the community to enjoy, and all proceeds support Wildsight Kimberley/Cranbrook's local education, conservation, and regeneration initiatives.

We want to build this event WITH our community, and that's where YOU come in.
